### **What is SkinPen®?**

SkinPen® is an instrument used for microneedling, however it differs from traditional microneedling derma-rollers which can bend, break or even rust, resulting in possible infection or scarring with reuse.

SkinPen® may be used on all skin types.

### **What does SkinPen® correct?**

It helps to reduce the appearance of:

- Fine lines and smooth wrinkles
- Acne scars
- Hyperpigmentation
- Signs of aging
- Skin texture

## What is SkinFuse?

Skinfuse is an easy-to-use skin care regimen specifically formulated to provide the nutrients your skin needs to optimize the results of the SkinPen® procedure. Skinfuse products contain nutrients that support the skin after microneedling.

Also, to assist in your microneedling procedure recovery, Skinfuse does not contain ingredients that hinder the skin rejuvenation process.
